

Wireless personal alarm button

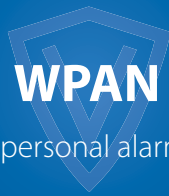

**Overview:**

The WPAN is a water resistant wireless personal alarm button which is supported by the SPC system. The device can be worn as a watch or pendant. The device can be programmed to activate a user PANIC alarm or to activate a user defined system output. The WPAN device allows the wearer to instantly raise an alarm if they feel in poor health, under threat, or in physical danger.

**Features & Benefits:**

- ✔ Can be worn as watch or a pendent
- ✔ Intuitive LED operation
- ✔ Water resistant design suitable for shower wearing
- ✔ Button functionality is configurable via the SPC system. E.g. the device could be programmed to activate a kill switch for factory machinery. Can be assigned to a unique SPC user

## Wireless personal alarm button

### Technical Specifications:

	Frequency	868 – 869 Mhz
	Battery Type	Energizer (R) CR2032 (No replaceable)
